

Compass for Developments

Getting Started

A TransLink Advisor will connect you with the Compass Team.

What happens next?

The Compass Team will set you up with an account and send you the necessary forms and pricing information.

Then, just tap and go!

Once the process has been completed, the Compass passes are automatically loaded.

What is Compass for Developments?

The **Compass for Developments** program is a bulk payment option for developers, property managers, or any organization that wishes to provide transit fares as a Transportation Demand Management (TDM) measure for their tenants.

How the program works

1. TransLink's Compass Team will create an account for you and advise the payment process
2. The applicant sends an initial list of occupants and respective pass types
3. The applicant sends a list of changes each month – i.e. replacement cards
4. Monthly fares will be automatically loaded for each occupant

Annual reporting

For applicants that have chosen the **Compass for Developments** program as a TDM measure, TransLink can provide an anonymized annual report for TDM monitoring purposes.

For more information and to get started please email
TDMdevelopment@translink.ca
